Discussions 3 people like this. Showing 50 of 673 comments On 5 October (the day after Chinese mid-Autumn festival) Point S auspiciously opened its first store in Petaling Jaya, Malaysia a short 30 mins drive from Kuala Lumpur city Centre. The news comes barely after Malaysia's public listed GIIB group signed on as a licensee of Point S Malaysia. GIIB group, is known for its "Supercool" brand of retread rubber. Point S has launched in Asia, specifically Malaysia. Malaysia becomes the first country on the continent Asia to join the international network of independent tyre dealers after the group began in Europe and has since expanded into America and Africa. The implementation of the brand will be operated through a master franchise agreement with GIIB Group (Goodway Integrated Industries Berhad) and partners, which will create a dedicated company to manage and develop the Point S network. The financial year ending 31 December 2015 saw Malaysia's Goodway Integrated Industries Berhad (GIIB), parent company of Goodway Rubber Industries and several other rubber compounding and retreading businesses, record its second consecutive net loss despite a positive contribution from the firm's new venture into property development. To reverse this trend, GIIB is decreasing its reliance upon the company's traditional rubber and tyre-related core business, and it has now taken a significant further step in this direction through the acquisition of S5 Systems Sdn Bhd. GIIB says this transaction will result in a "significant change in business direction." KUALA LUMPUR (April 28): Goodway Integrated Industries Bhd is establishing an investigation committee to probe alleged irregularities highlighted by its external auditor with regards to its accounts for the year ended Dec 31, 2017 (FY16). In a filing to Bursa Malaysia, the group said its external auditor, Messrs Kreston John & Gan, has expressed a qualified opinion in its report. This follows alleged irregularities comprising impairments worth a total of RM45.5 million. Interestingly, the amount is more than Goodway's current market capitalisation of RM31.5 million. "We were unable to obtain sufficient appropriate audit evidence on the carrying amount of the plant and equipment of RM34.11 million and inventories of RM11.4 million," said the external auditor. "Therefore, we could not determine the effect of adjustment, if any, on the financial statements of group." The management is of the view that no impairment is required on the carrying amounts of the plant and equipment, and inventories," it added. Goodway's losses widened to RM42.42 million or 38.39 sen a share in FY16, from RM9.35 million or 8.46 sen a share in FY15. If not for the two carrying costs, Goodway's FY16 results would have turned to black to the tune of RM3.12 million. The group's revenue declined 7.23% to RM168.25 million, from RM181.36 million in FY15. Goodway's share price gained half a sen or 1.72% to 29.5 sen today.
